

INFN Postdoctoral Fellowships in Experimental Physics for non-Italian Citizens

The 2026/2027 INFN Research Fellowship Program offers **20 (twenty) post-doctoral positions** for research activity in Experimental Physics. Eligible candidates are non-Italian citizens. The **contract** is for one year and may be extended for one further year.

The call details and application process are published at:

<https://jobs.dsi.infn.it> (reference n. **28200**)

Applications **deadline: 15/12/2025**.

The applications should include the research topic(s) of interest, and the preferred INFN site(s) to host the fellow's research programme.

The **University and INFN Roma Tor Vergata ATLAS** group is available to support the application and answer questions from candidates who wish to work on the **ATLAS experiment** and select the Roma Tor Vergata INFN as their host **site of first choice**. Interested candidates can contact **Prof. Lucio Cerrito** (lucio.cerrito@uniroma2.it).

Other eligible INFN sites might also offer similar support if contacted.
